

# HKT SkyExchange TKO3

SkyExchange TKO3 is HKT's third networked facilities management center in Tseung Kwan O (TKO). Together with SkyExchange TKO2 in the TKO Industrial Estate, and SkyExchange TKO1 in Po Lam, the three sites form a TKO campus connected by high-speed fiber rings to provide resilience and diversity.

The TKO campus contributes to a rack capacity of around 3,000, and allows enterprises to interconnect with an ecosystem of multinational corporations, service providers and financial institutions, in proximity to the Hong Kong Stock Exchange, and the Hong Kong Internet Exchange satellite site.

Installed alongside HKT's network nodes, SkyExchange allow enterprises to enjoy low network latency and highly reliable connectivity.

## SkyExchange Benefits

- **Finance ecosystem.** The Finance ecosystem formed within SkyExchange allows financial institutions to interconnect with each other. SkyExchange also provides direct connection to HKEx (SDNet/2) and business continuity facilities to suit different business needs.
- **Zero-hop connectivity.** SkyExchange helps enterprises and service providers to connect seamlessly to mainland China and the rest of the world via the HKT & PCCW Global network and provides easy access to major HKT network nodes including SkyExchange Internet Access, Business NETVIGATOR Broadband, HKT Enterprise Cloud, PCCW Global and the csl/1010 mobile network.
- **Supports hybrid/multi-cloud development.** SkyExchange facilitates your digital transformation journey by providing multi-cloud connectivity, with SkyExchange Multi-Cloud FAST Connect, to the major Cloud Service Providers while retaining your mission-critical systems within SkyExchange.
- **HKT's all-round cybersecurity solutions** meet the stringent security requirements of the banking and finance industry by helping them to proactively identify cyber threats and protect their mission-critical systems/applications against sophisticated cyber attacks.
- **One-stop ICT solutions and managed services.** From data center migration, to equipment purchase, system integration, network connectivity and managed services to keep your mission-critical equipment up and running.

### Specifications

Facility	
Location	2 Chun Yat Street, Tseung Kwan O Industrial Estate, N.T.
No. of Racks	~1000
Car Park	Multiple carparks shared with other tenants
Loading Dock / Passenger Lift	Available
Cargo Lift	Load Capacity: 3,000Kg
Floor Type	Raised Floor
Cabinet	Cabinet size: (600mm (W) x 1000mm (D) x 42U(H)) with key lock # Other size to be discussed and customized. Cage option available
Power	220V, 2x20 UK13A sockets, standard 3kVA provision inclusive (with generator and N+1 UPS backup (10mins))
Air-conditioning	✓ CRAC System N+1 design ✓ Temp: 22°C ± 2°C ✓ Humidity: 55% ± 10%
Fire Suppression System	FM200 / NOVEC 1230 total flooding fire extinguishing system; VESDA
Water Leakage Detection System	Yes
Access Control System	IC Card / Biometric access control
Surveillance	CCTV with digital recording
Building Management	24x7 monitoring via NOC
Support Service	24x7 basic remote hands and eyes support
Number of Cable Risers	Dual risers with space diversity
Cable Route Diversity	Co-located with HKT Exchange plus diversity route to neighboring Exchanges
Operation Practices	ISO20000 and ISO27001 (Planned)
