Incident Response Services

Respond to and remediate cyber crises and help to stop recurrences

ALL-ROUND CYBERSECURITY SOLUTIONS
GLOBAL CAPABILITY · LOCAL EXPERTISE

Cyber breaches can happen with unexpected speed and ruin a business. The estimated average total cost of a data breach is US$3.86M*. Very few enterprises can recover from a breach and minimize their losses without having an holistic incident response strategy.

HKT's Incident Response Services are designed as part of an all-round cybersecurity solutions to help you fight against cyber attacks with confidence. It is backed by our experts and Next Generation Security Operations Center (NG SOC).

BLACKPANDA

Effectively investigate root causes and mitigate threats with a methodical approach

SANS>>NIST>>ISO

HKT's Incident Response Services are run by highly experienced and well-trained practitioners. Our accredited service procedures are based on a combination of industry best practice (SANS, NIST, ISO) and utilizing our vast local and global threat intelligence. This enables you to swiftly identify root causes, resolve cyber incidents and return to normal quickly and efficiently with the minimum of disruption.

Benefits

Accelerated response times

Our experienced on-site and remote responders understand your language and culture, so they can manage crises quickly and efficiently.

Comprehensive report and recommendations

We provide reports detailing all actions taken for each incident, a full assessment of the response efforts and recommendations for the future.

Peace-of-mind plans to suit your needs

Retainer and On-demand Incident Response Services are time-efficient and cost-effective to ensure you have the right people following the right program at the right time.

Round-the-clock protection

Combined with our Threat Management Services (TMS), we provide 24x7 monitoring, threat hunting and forensic services by internationally certified experts (GCIH, GCFA, CCFE, CCTI, GNFA...) at NG SOC.

Crisis-proof your business.

Our team of experts and best practices, ensure your business will be able to bounce back quickly, and effectively from any breach.
